Re: Lining Contract No. 10 Sewer Rehabilitation Project

MSD Project No. 2024035

Dear Property Owner/Current Resident:

This letter is to inform you that the Metropolitan Sewerage District (MSD) is scheduled to rehabilitate the mainline sewer on or near your property, by way of trenchless technology. Your sewer service will remain active without interruptions. This project has been awarded to CaJenn Construction & Rehabilitation Service Inc., and is anticipated to begin in approximately 2 weeks. The attached map shows the approximate location of the proposed sewer infrastructure to be rehabilitated in white.

If you have any questions or concerns, you can contact MSD's construction inspector, Nathan Plemmons, at 828-776-2875 or MSD's Inspections supervisor, Kevin Devlin, at 828-768-0205.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Stamey".

Michael Stamey, P.E.

Construction Director
